

## DELCO-LIGHT

ELECTRICITY FOR EVERY FARM

**DELCO-LIGHT**

### "The Best Lighted Farm in the County"

One prominent farmer says:  
 "Delco-Light has actually added to the value of my farm—  
 "The neighbors speak of it as the best lighted farm in the county—  
 "But it is more than that—it is the best place in which to live—and to raise a family."  
 Delco-Light brings city comforts and conveniences and economies to the farm.  
 It lights the house and barn—it furnishes power to pump the water, wash the clothes, churn the butter, separate the cream—run the vacuum cleaner and the electric fan.  
 It is so simple that a child can operate it and so economical that it actually pays for itself in time, labor and fuel saved.

### CHRISTMAS

Christmas is the only one of our holidays the observance of which is based upon good will and thoughtfulness for other people. Other holidays are in recognition of a great national event or in memory of those who have done or suffered great things for their country. Thanksgiving expresses gratitude for our blessings and New Year's day, if we observe it with thoughtfulness, is an occasion for a little self-examination and a resolve to do better. But Christmas is rightly a day of peace and good will toward other people. The festival this year will be an especially joyous one for America. The shadow of the war has been lifted and we look forward to an era of peace and prosperity. In memory of the great goodness brought to the world on that day in Bethlehem, let us show our good will to others.

### WERE ON THE JOB

General Pershing's recent war report gives us a history of the work which the American army has done in France. It is a concise document without trace of exaggeration but reading between the lines we see the high courage of our American boys clearly revealed. The work which the Americans have done in the war is far greater than military experts foresaw as possible in so short a time but with the efficiency of the American, which comes from his innate adaptability and use of reasoning powers, they took hold of the war as they would of any other work. Inspired by glowing patriotism, they brought to war the American idea that "the job had to be done and it was up to them to get busy." The page of history for 1918 will show how they carried out their idea.

Good to buy, good to hold, good to give for Christmas—War Saving Stamps.

### DID A GOOD WORK

A word of appreciation is due our exemption boards. They have done patriotic duty of the greatest importance without much praise or publicity. Their service has been a difficult one, calling for quick discrimination and excellent judgment. Many of the men have carried out the work at a sacrifice of their own private interests. With all their work there has been very little criticism. The nation owes a debt of gratitude to these real and unostentatious patriots.

### America's Pledge of Food Gave Heart to the Allies In Their Darkest Hour

Whatever is necessary America will send. That was America's pledge to the interallied food council. And because the American food army had hitherto made good they took heart and went forward.

Farm enterprise and much soft corn increased pork supplies, food conservation increased exports—total shipments doubled.

 FAITH JUSTIFIED BY EVENTS.  
 \*\*\*\*\*

I do not believe that drastic force need be applied to maintain economic distribution and sane use of supplies by the great majority of American people, and I have learned a deep and abiding faith in the intelligence of the average American business man, whose aid we anticipate and depend on to remedy the evils developed by the war.—Herbert Hoover, August 10, 1917.
